A Terrible Experience

If you meet a snake and haven't a gun, or if the fire arm is antiquated and uncertain; or if the gun is all right and you have no ammunition or poor cartridges, you will be in a bad fix. Less dangerous but equally provoking is your predicament when you see good game under the same circumstances. Load up right now and here.

IT PAYS TO BUY THE BEST

Look to the Food You Eat.

To Every Lady

visiting our store we will give the current issue of "What to Eat," the most beautiful, artistic and reliable epicurean magazine in the world. We have made arrangements to procure this magazine for distribution each month, as we believe the time has come when great interest should be taken in the subject of pure foods, and we know of no other publication of prominence that has taken so honest a stand in its opposition to adulterated and fraudulent goods of every kind. Then, too, in addition to this, "What to Eat" is the only entertaining magazine on the food subject published in this country, its pages being full of suggestions for entertaining, lists for the table, bright stories and practical menus and recipes, and, in fact, all topics of value, not only to every housewife, but to the gentlemen of the house hold and club. The merit and standing of the magazine may be realized from the thousands of flattering newspaper notices of the press in all parts of the world. Here are a few:

"A most artistic and excellent magazine."—Paris edition of the New York Herald.
"Almost good enough to eat."—Philadelphia Call.
"Printed exquisitely, illustrated delightfully."—London Epicure.
"In every way superb."—Boston Globe.
"Unique in its conception and artistic excellence."—Christian Intelligencer.
"Bright and interesting as usual."—Omaha Bee.
"In many respects it leads many of the popular magazines."—Scranton Republican.

MAY NOT ATTEND.

Washington, August 24.—Secretary Corelyon has advised W. H. Harper, director of the Thirty-fourth national encampment of the Grand Army of the Republic, that while the president had intended leaving Washington tomorrow, reaching Chicago Saturday afternoon to participate, the condition of affairs here will delay his departure and may possibly prevent him from visiting Chicago at this time. An official of the government discussing the determination of the president to postpone his visit to Chicago, says his action was taken on account of the Chinese situation. It is expected that information may reach this government at any time requiring immediate action, and it is the wish of the president to give his personal attention to everything that may demand a settlement of existing conditions.

NEGROES THREATEN WHITES.

The sheriff of Sabine county is on the ground with a posse and the last report received was that a clash was momentarily expected. The disturbance grew out of threats made by negroes against some of the prominent white citizens.
